

FIRST AID ROOM EQUIPMENT

Does your workplace require a First Aid room?

A First Aid room is recommended for:

- Low-risk workplaces with 200 employees or more
- High-risk workplaces with 100 employees or more

- | | | |
|--------------------------------------|--|--|
| A. Stretcher | F. Nitrile Examination Gloves | K. St John DRSABCD Action Plan poster |

| E. Sharps Container | J. National Workplace Kit - Wall Mount | O. Defibrillation Response Plan poster |

Note: The image above shows a basic set up for a First Aid room. Please refer to the reverse page for additional items you may require in your First Aid room.

First Aid Facilities

The contents of your First Aid room need to suit the hazards that are specific to your workplace.

- The location and size of the room should allow easy access and movement of injured people.
- A person with a current occupational First Aid qualification (or higher) needs to be responsible for the room and its contents.

Risk Factors

- Workplace First Aid requirements will vary according to the nature of work conducted, size of the workforce, geographic location and the types of hazards encountered.
- Add-on packs that are frequently required for First Aid kits are those dealing with **bites and stings, eye injuries, burn injuries and hazards associated with remote workplaces.**

Complete order form on reverse or call us on **03 8588 8590** and our consultants can assist you to determine your First Aid room requirements.
